

AGRETO Hour Meter AgriCounter Vibration

Applications:

- Electronic hour meter for all types of machines and implements
- Ideal for community and rental machines

Technical details:

- Activation by motion/vibration of the machine
- Separate summation of working time (use in the field) and travel time (travel to the field) by changing the position of the counter
- Hour display optionally in h:mm or h, hh
- Possibility of setting the necessary intensity of movement for activating the counting process
- Large, permanently switched on LCD display
- Six-digit display, digit height 11 mm
- Symbols for displaying additional information
- Robust, one-piece plastic housing
- Protection class IP69k (pressure washer resistant)
- Tamper-proof by lead sealing of the housing screws - Zeroing, adjustment of settings and battery change only possible by visible damage to the lead seal
- Power supply via 2 AAA batteries
- Battery life with standard batteries approx. 3 years
- Dimensions: 93 x 52 x 33 mm
- Scope of delivery: Counter, 2 batteries, 5 lead seals, mounting material, manual
- State-of-the-art technology, Made in Austria
- 5 years warranty

Benefits:

- Simple, reliable hour meter
- Exact time recording with 3-axis sensor
- Determine operating time and travel time separately
- Fair billing base according to real use
- Optimisation of service intervals for operating time
- No manipulation possible by the user
