

From the top peeler brand: pineapple large model

# FAP-3000 Available End of 2025

Watch Now!

## 01 Loading

Simple loading  
—works with  
all pineapple sizes.

## 02 Peeling

Smooth surface,  
high yield.

ASTRA's technology  
delivers beautiful  
results, leaving more  
edible fruit.

## 03 Coring

After peeling,  
coring is fully  
automated.  
(Coring can also  
be disabled if not  
required.)

## 04 Ejection

After peeling and  
coring, the fruit  
is discharged  
through the chute  
to the next  
process.

Conveyor not included.

## Why choose ASTRA peelers?

The peeler method delivers it all: **speed, smooth finish, high yield, and less dripping.**

A peeling technology perfected by ASTRA's expertise.

## Easy waste separation!

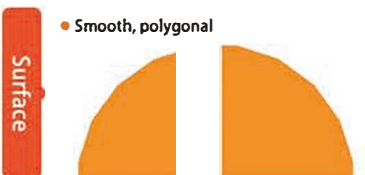

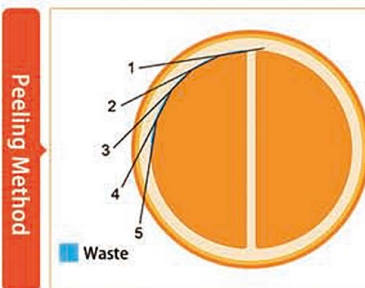

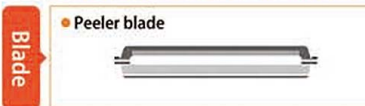

- ① Peels
- ② Pineapple after peeling & coring
- ③ Pineapple core

Each is collected separately, making sorting and reuse simple.

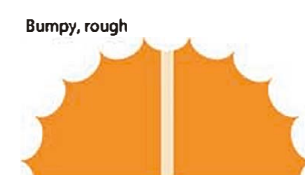

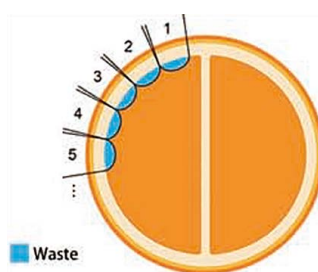

### ASTRA Peeling Machine

- Peeling with peeler blade
- Fast speed
- Smooth surface
- High yield rate
- Less juice dripping
- Peeling depth adjustable

### Normal Peeling Machine

- Peeling with round-type unit
- Slow speed
- Bumpy, rough surface
- Low yield rate
- More juice dripping
- Not good at adjusting depth

## Mixed sizes? No problem!

Automatically detects pineapple size at loading, and peels with the perfect setting (patent pending).  
**Mixed sizes? One setting does it all!**

## Other models available!

In addition to this model, we offer peeling machines for a wide variety of fruits, including apples, oranges, mangoes, melons, and more. Please feel free to contact us.

## Used worldwide!

ASTRA peelers are adopted in over **60 countries** worldwide, thanks to their **high performance** and compact, easy-to-ship design.

- ▷ **Value-added** uses - dried fruit and jam (worldwide)
- ▷ World's **largest kiwi factories** (New Zealand)
- ▷ **Major supermarket** chains (Taiwan)
- ▷ Distilleries producing **lemon liqueur** (Italy, Australia)
- ▷ Cut fruit service for **hospital meals** (USA)
- ▷ **Large-scale processing** in cold storage(UAE)
